MAI Environmental Policy Principles

MAI is committed to conducting our business in a manner that protects the environment.

To meet this commitment, MAI maintains management systems designed to ensure compliance with all applicable environmental laws, regulations, internal requirements and other applicable requirements. We will take a precautionary approach to environmental challenges. MAI will promote pollution prevention, resource conservation and reduction and recycling of waste.

MAI will work with our suppliers, contractors and customers to promote responsible environmental practices. We will also support education and research that promotes and advances environmental progress and knowledge for the common good.

The MAI's systematic approach to environmental management enables identification and mitigation of environmental risks and facilitates enhancements of environmental performance. It adds adherence and compliance to the ISO 14,001 norm.

Information, instruction and training on MAI's Environmental Policy is provided

to managers and employees. All interested parties have access to this Environmental Policy. All employees are responsible for ensuring that environmental sustainability is managed in all aspects of the business and shall report of inconsistencies.

MAI is determined to continuously improve its environmental performance by establishing clear and measurable targets and objectives. Other means for identification and implementation of environmental improvements are internal auditing and monitoring. Those who contribute to improvement are recognized and awarded.

Relevance and applicability of the Environmental Policy are reviewed in line with Management review procedures.

MAI's Quality manager should be contacted for any questions relating to this policy. Please use the e-mail address: quality@mercadosaries.com
